

# DEVELOPING INTERACTION

Presented by: Amy Craig

## An introduction into on developing engagement and interaction skills focusing on the intervention 'Intensive Interaction'.

Amy Craig is a Specialist Speech and Language Therapist with over 10 years experience supporting the communication needs of pupils with severe and complex needs.

### Key Topics will include:

- The Fundamentals of Communication
- Techniques to enhance engagement and communication between individuals
- Understanding and implementing "Intensive Interaction"
- How to measure progress

### What is Intensive Interaction?

Intensive Interaction is an approach that is used to support the development of communication skills in individuals with significant communication and learning needs. It emphasises the importance of building meaningful interactions through mirroring, responsive movements, and vocalisations to create a shared, enjoyable experience between two people, helping to develop a trusting and responsive relationship.

This approach is tailored to each individual's unique communication needs and aims to create a positive, interactive environment that promotes social and communicative development.
